INTERIOR & EXTERIOR

This beautiful interior was completely redesigned in 2008, and remains in outstanding condition. The design features a light camel leather design, with custom coordinated headliner, window-line and lower treatments. The woodwork was completely stripped, with the factory-issued laminate replaced with a deep, high-gloss mahogany veneer. The extended galley features a faux-marble table-top.

The new exterior in 2011 features a brilliant Matterhorn White upper, over a Silver Mist lower, with compound laser accents in deep Royal Blue and Vegas Gold.
