INTERIOR & EXTERIOR:

This beautiful interior was completely refinished in August of 2008 in a camel tan and beige motif, accented with high gloss burl woodwork and brushed deep brass plating. The 8-passenger configuration features a center club-4 grouping, with an aft forward-facing pair and a forward 2-place divan. The club features dual tables, while one aft seat serves as a work station. The fully enclosed lavatory private lavatory can serve as a belted 9th seat, and there is a deluxe galley in the forward cabin. There is a large entertainment monitor in the forward cabin, and each seat has an individual monitor as well, driven by the dual DVD systems.

The exterior was also refinished in 2008 in a brilliant Matterhorn White, highlighted with laser accents in deep auburn, Vegas gold and platinum.
