DEE HOWARD TR 4000 THRUST REVERSERS

INTERIOR AND EXTERIOR

This gorgeous 8-passenger interior was completely re-designed and expertly finished in 2006, featuring the finest leathers, fabrics and woodworking craftsmanship available in the industry.

The center-cabin features the club-four, with high-back tracking and reclining captain's chairs, surrounding dual wood-finished writing tables. The forward-cabin carries full galley amenities including ice-chests, decanter storage and more, as well as the wide side-facing lavatory-station/passenger seat. The aft-cabin features the three place divan. All seating is completed in a deep graphite leather design, accented by the sculptured pewter carpeting. The woodwork throughout the cabin is a beautiful high-gloss walnut, offset by gunmetal plating. Entertainment is provided by the large video monitor located in the forward bulkhead, which can either play DVD's or the Airshow-400 in-flight cabin display.
